- Insurance
- Law Enforcement
- Legal Services
- Manufacturing
- Pharmaceutical
- Public Administration
- Retail
- Shipping
- Transportation

#### CSIS in brief

Founded in Copenhagen in 2003, employee-owned CSIS Security Group is a leading independent provider of cyber security services, primarily in Europe. Credited by Gartner Group for our threat intelligence capabilities, we mitigate customers' security risk with a range of preventive security products and services, as well as with incident response and managed security services.

We are the preferred cyber security provider to some of the world's largest enterprise organisations, and are a trusted advisor to law enforcement agencies, government and news media.

Most of our customers are medium- and large-sized organisations. However, we also help protect relatively small companies who also have business-critical IT systems or intellectual property requiring first-rate cyber security protection.

Our subsidiaries include Heimdal A/S and Defendas A/S.

CSIS - REST ASSURED. CYBER SECURITY INTELLIGENCE SERVICES

#### **Solutions**

#### **PREVENT**

# A COMPANY BUILT ON VALUES

#### **OUR VALUES**

#### Responsible

We are a dependable team of professionals. The security of our customers comes first.

#### Respectful

We respect our customers and each other. We are an open-minded and culturally diverse team

#### **Proactive**

We lean forward into the future. Our intellectual curiosity and customercentricity makes the difference.

#### **Positive**

Even the most difficult challenge has a solution. We are persistent, and the word "can't" is not a part of our vocabulary.

#### **OUR VISION**

To deliver effective cyber security solutions for the benefit of customers worldwide.

#### **OUR MISSION**

To guarantee a return on our customers' cyber security investments by minimising their exposure to cyber threats.

# Global reach

**OUR CUSTOMERS SPAN THE GLOBE** 

Argentina / Australia / Austria / Brazil / Canada / China / Czech Republic
Denmark / Faroe Islands / France / Germany / Greenland / Hong Kong / India
Ireland / Italy / Japan / South Korea / Latvia / Lithuania / Mexico / Mozambique
Netherlands / Norway / Oman / Poland / Qatar / Romania / Russian Federation
Singapore / Sweden / Switzerland / Tanzania / Thailand / Turkey / Ukraine
United Arab Emirates / United Kingdom / United States

# CRITICAL THINKING & DIVERSITY

SINGLE FOCUS

We detect and mitigate threats to protect our customers' assets, brands and users.

We cherish our independence and the fact that we are a public limited company with an employee-owned share scheme.

## As well as our values, our culture is based on four cornerstones

#### Respect

We make it our business to ensure everyone – no matter what age, gender, disability status, sexual orientation, religion, ethnicity or family circumstances – is treated with fairness and respect. Always.

#### Intellectual curiosity

Our informal yet productive work environment is challenging, and our people value critical thinking, openness, honesty, creative persistence, and diversity.

#### One team

We have created a non-hierarchical and inclusive environment for exceptional people. We leave politics and competition at the door, because we're here to do great things together, as one team.

#### **Diversity**

We come from a wide variety of backgrounds, both traditional and non-traditional. Our team currently comprises 18 nationalities.

# CSIS PARTNERSHIPS

"Cyber crime is neither a national nor a regional problem - it is a global one. CSIS and Europol collaborate to help ensure that the internet not only remains unrestrained and open, but also becomes much safer."

#### STEVEN WILSON

Head of the European Cybercrime Center at Europol

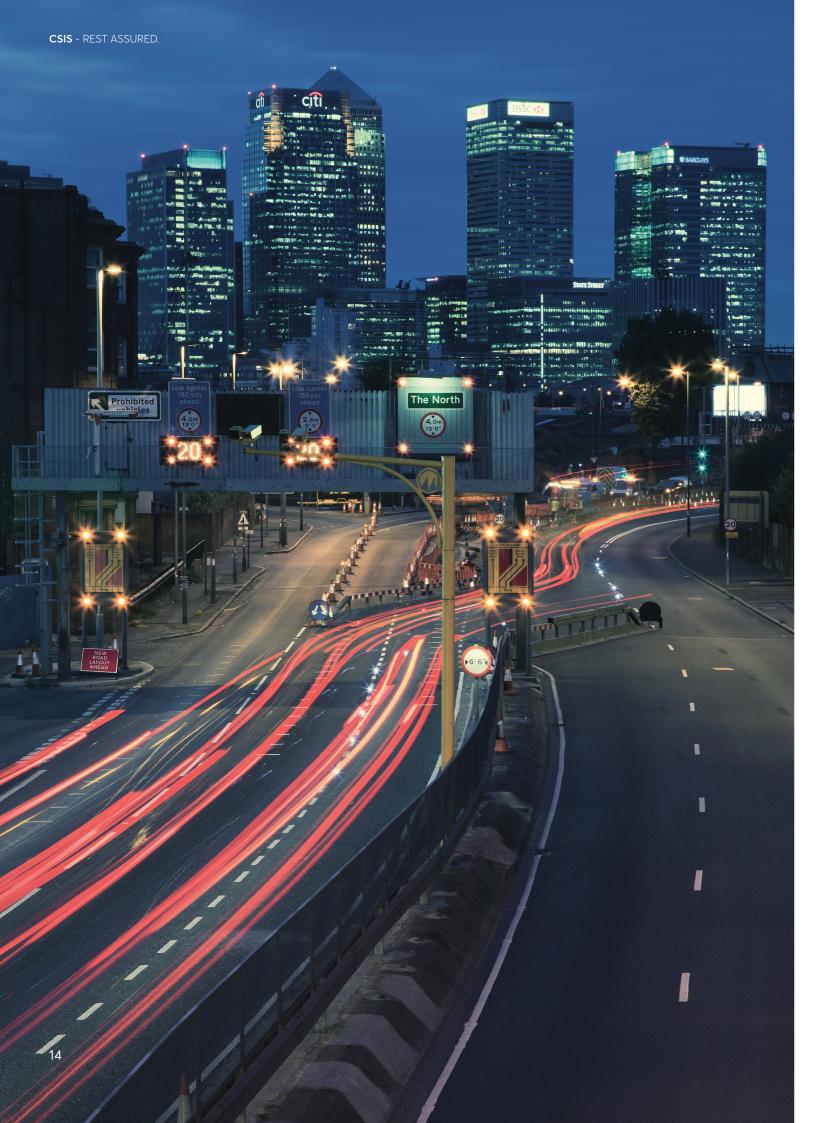

## Incident response

# Supporting business continuity with 24/7 availability

Our Incident Response team provides organisations with fast, on-site assistance to tackle anything from small malware infections or data recovery, to advanced and persistent attacks.

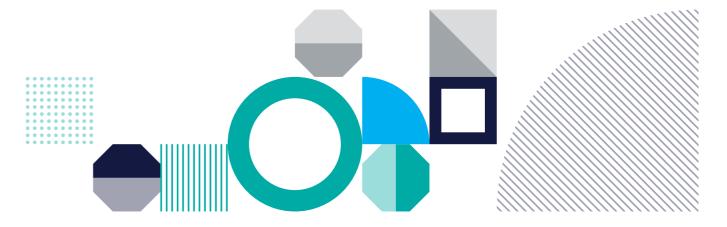

We quickly determine the scope of an attack and immediately start remediation with proven techniques to secure compromised networks. Every incident is handled by our in-house team – no part of the service is outsourced.

We are part of the European Cyber Security Group (ECSG), Europe's largest independent provider of CERT services, and our Incident Response team are an authorised CERT™.
